

# Abstract Guidelines

## **Biography**

The biographical statement should contain the author(s) full name. Additionally, it is also appropriate to discuss your personal history, educational program and/or field placement, and interest within the article's subject. The biography should not exceed 100 words.

First name A. Last name, full time position.

## **Abstract**

The abstract text should be formatted using Calibri 12 point and indented 0 mm from the left margin. There must be Single line spacing in the paragraph. Leave 18 point spacing after the abstract before the biography, starting on the same page as the abstract. The abstract should give readers concise information about the content of the article and indicate the main results obtained and conclusions drawn. It should not exceed **300 words in this paragraph**. Since up to date information-retrieval systems rely heavily on the content of titles and abstracts to identify relevant articles in literature searches, great care should be taken in constructing both.
